1. Print out the template. Fold the picture along the spine and cut out the horse along the black line.

2. Fold belly flaps inwards. Put some glue on one of them and glue belly flaps together.

3. Glue two sides of the head together. And glue the base of the tail.

4. Make folds along the legs so your horse can stand on it's own.

5. Fold left over paper and cut it to make the mane. Then cut both ears from a single piece of the folded paper.

6. Glue the mane and ears in place. Make a little blanket for the horse and decorate. You may use the horse as a greeting postcard.
