

Twirly-Whirly

1. This is a very simple paper project. Get paper clips and colored paper. Then cut out paper rectangles.

2. Next, make two cuts like the ones shown. Draw two dots so you don't cut too far. We recommend you draw lines for kids.

3. Then, take a paper clip and fasten both ends with it. Now, hold up your Twirly-Whirly up high and let it twirl down!
